

Research Update Meeting – Call for Papers

Online RUM to be held on Tuesday 15th June 2021

The Research Update Meeting is an ideal opportunity for clinicians and researchers to share and discuss ideas for potential research projects, as well as projects in progress or recently completed, in a supportive environment. It offers the opportunity to receive feedback on ideas and to keep up-to-date on current research activities, as ongoing CPD. The full programme will be advertised by early May 2021.

Call for project summaries

We welcome abstracts on planned, ongoing or recently completed studies related to aphasia. Each presentation will be followed by an opportunity for discussion.

Please e-mail a summary of your research idea or project to research-in-progress@bas.org.uk (Gillian Capriotti)

(Extended) Deadline: **Tuesday 13th April 2021**

Summaries should be no more than 400 words. Please include the following headings: Background, Aims, Methods, Results (if applicable) and Conclusion (or future plans).

All submissions will be reviewed anonymously. Authors will be notified of the outcome of the review on Tuesday 27th April 2021.
