

Video Project

The project made **videos to help** people with Aphasia

People with an **Acquired Brain Injury** and **Aphasia** were asked questions

Questions were about **word finding difficulties**

This information was used to make **3 videos**

One video was about **strategies** to remember words

Another video was about how **families** can help people with word finding difficulties

People with Aphasia said it was important to have a video about **how it feels** to have word finding difficulties

The videos are on You Tube 

Feedback

A Speech and Language Therapist gave the videos to **people with word finding difficulties**

A Speech and Language Therapist gave the videos to **families with word finding difficulties**

People using the videos gave feedback

People with word finding difficulties watched the videos a lot

Families **shared** the videos with friends

People with word finding difficulties and families **liked** the videos

This project finds that videos can be useful to support people with Aphasia

You can **find the videos** by scanning this QR code
